

# Lum: School seismology update from AUSD Superintendent McPhetridge

Continued from page 8  
anger, fear and grief. Last week was one of those times when I had to share news none of us wanted.

Many have now heard that engineers have recommended that we no longer house children at Lum Elementary School. This is due to a troubling combination of soil that is at high risk of liquefaction and foundations not adequately built to withstand that liquefaction. Engineers have warned us that the situation at Lum Elementary could be unsafe in the event of a 100-year (6.8 on the Richter scale) earth-

quake. And many of us also know that some experts say the Bay Area is now overdue for a major seismic event long predicted along one of the several different faults that run through the area.

You can learn more about the technical issues involved at Lum on our website. I want to emphasize my — and my staff's — commitment to keeping students and employees safe, to giving you as much information as possible about the situation and to engaging the community as we move toward seeking solutions. I know that all our families and staff have strong

connections to their school sites and school communities. I know that this news is devastating to many in the Lum community and many others who are impacted also. I know we need to have a series of conversations about what ultimately will be decided by the Board of Education as the best solution for Lum students, Lum staff, Lum families, AUSD and the Alameda community at large.

Some members of the Lum community have formed their own committee to represent their concerns and advocate for keeping Lum open. I have thanked them for

doing so, and I appreciate their efforts to work together on behalf of their school and families. Please know we aim to listen closely to the committee members with open minds and with respect. I hope all of us will also listen to AUSD staff and engineering experts with open minds and respect. All of us have a part to play to make sense of this difficult news.

We need to respect the need for inquiry to understand what we must discuss going forward, and we need to respect this process that ultimately impacts us all. I am convinced that this community

can navigate this issue to move forward. But I also know firsthand from past experiences in similar situations that we can only do that if we all work together, listen to one another and advocate for a way forward that is deliberate and thoughtful.

I respect those who are asking us to slow down and talk about this, and I also know that the Board of Education and AUSD staff do as well. Meanwhile, in my role as superintendent, I am mindful that we must focus on protecting the physical safety of students and staff throughout and our rec-

ommendations to the Board going forward must be always based on that legal, moral and professional responsibility.

Please know we look forward to continued conversations so we can access the great strength of the Alameda community as we chart a way forward. We welcome input from community members and staff as we look forward to Board of Education meetings ahead.

Thanks to all who are working to support one another through-out.

*Sean McPhetridge is the Superintendent of Schools.*

## ALAMEDA CLASSIFIEDS

### ANNOUNCEMENTS

#### DEAR HEART OF JESUS

In the past I have asked for many favors, this time I ask for this special one. Take it dear Heart of Jesus and place it with your own broken heart where your Father will see it. Then in His merciful eyes it will become your favor, not mine. Amen. Holy Spirit you who make me see everything and show me the way to reach my ideals. You who give me the divine gift to forgive and forget all that is done to me. You who are in all the instincts of my life. I, in this short dialogue, want to thank you for everything and affirm once more that I never want to be separated from you (name whatever your request is). Say this prayer for 3 days. After the third day, the request will be granted, no matter how difficult. Promising to publish the entire dialogue is a condition for granting your request.
